

**PRECAUTIONARY STATEMENTS**

Hazard to Humans and Domestic Animals

**CAUTION:** Keep away from humans, domestic animals and pets. May be harmful if swallowed or absorbed through the skin because this material may reduce the clotting ability of blood and cause bleeding. Do not get in eyes, on skin, or on clothing. Wash arms, hands and face with soap and water after applying and before eating and smoking.

**FIRST AID:** Have label with you when obtaining treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of cool water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Note to Physician or Veterinarian: Contains bromadiolone, an anticoagulant. For humans or dogs that have ingested this product, or have obvious poisoning symptoms (bleeding) or prolonged prothrombin times, give Vitamin K<sub>1</sub> by intramuscular or oral administration. Check prothrombin time every 3 days or until values return to normal.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Storage: Store in original container in a cool, dry place inaccessible to children and pets.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Offer empty container for recycling, or dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**WARRANTY:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Active Ingredient: bromadiolone . . . . . 0.005%  
Inert Ingredients . . . . . 99.995%  
Total . . . . . 100.000%

**KEEP OUT OF REACH OF CHILDREN  
CAUTION:** See side panel for additional precautionary statements.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL** and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals, and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container, unused, spoiled and unconsumed bait as specified on this label.

**USE RESTRICTIONS:** This product may be used to control Norway rats, roof rats and house mice in the sites identified below. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not broadcast bait.

**Urban areas:** This product may be used in and around homes, industrial, commercial and public buildings, food processing facilities, and similar man-made structures. This product may also be used in transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings. This product may also be used in alleys.

**Non-urban areas:** This product may only be used inside of homes and agricultural, industrial and commercial buildings.

**SELECTION OF TREATMENT AREAS:** Determine areas where rats and/or mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been observed. Remove as much alternative food as possible.

**APPLICATION DIRECTIONS:**

**Mice:** Use one pack per bait placement. Space placements at intervals of 8 to 12 feet. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there are no new signs of mouse activity.

**Rats:** Apply 3 to 10 packs per bait placement, usually spaced 15 to 30 feet apart. Maintain an uninterrupted supply of bait for at least 10 days or until there are no new signs of rat activity.

**Follow-up:** Replace contaminated or spoiled bait immediately. Collect and properly dispose of all dead animals and leftover bait, as well as any bait that has become accessible to non-target animals. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a permanent source of infestation is present, establish permanent bait stations and replenish bait as needed. (07506)
